ABOUT ME

Java Back-End Developer with 5 years of experience, specialized in designing secure APIs, developing web applications, and managing databases. Passionate about building high-performance and scalable solutions, and certified in Oracle, Docker, and IBM Full Stack

COMPETENCES

Programming Languages and scripts: Java, TypeScript, JavaScript .

Platforms and Tools: Git, Docker, Jira, Jenkins, AWS, CI/CD pipelines, Linux, Postman, Maven, GCP, Terraform.

Frameworks: Spring Frameworks(Spring Boot, Spring Data, Spring Security), Jakarta EE (Servlets, JSP,JSTL,JPA), Hibernate, JUnit5, Mockito, Angular, React.js, Next.js.

Methodes and pratices: Agile Development, integration testing, algorithmic optimization,object-oriented programming (OOP) with SOLID principles, design patterns.

Databases :

Mysql, Oracle, Pgsql, Sqlite .

PROFESSIONNAL EXPERIENCES

Software Engineer– Eurafric Information

January2025 – now (Bouskoura)

- Developed and maintained banking web applications using Java and Spring Framework and a custom internal framework.
- Automation of financial processes through from-scratch batch jobs, improving speed and compliance.
- Participated in system design and architecture improvements, applying design patterns and refactoring services, handlers, and validators to improve maintainability and clarity.
- **Technologies used:** Java, DevBooster, Batch processing, API REST, Oracle, Spring Boot, Bash, Jira, Maven, Jenkins, AWS.

Full Stack Developer(End of the year Internship)Alef Digital Solutions Casablanca

May2024 –September2024 (Casablanca, Morocco)

- Full development of a car rental application from scratch, including business features, REST APIs, and a scalable architecture.
- UI/UX design for a modern and intuitive user experience (user flows, wireframes, high-fidelity mockups).
- Management of production incidents through log analysis, bug fixing, and performance optimization.
- Scrum Master role, leading Agile ceremonies and coordinating project teams.
- **Technologies used:** Java, Spring Boot, Angular, AWS, REST, Figma, Agile Scrum, Jira, Docker, Jenkins, Maven, Junit, GCP, Terraform .

Backend Java Developer– Gold Tech Technology

July2023 –December2023 (Canada– Remote)

- Development of a meal reservation application with Spring Boot and Angular, integrating backend/frontend and implementing key features.
- Optimization of REST APIs to improve performance, data flow, and overall system efficiency.
- Delivered complete end-to-end projects/features independently, owning development from implementation through testing and deliver on time.
- **Technologies used:** Java, Spring Boot, React, REST,PostgreSQL, Docker, Jenkins, Maven, Jira, Spring Boot, Angular, REST, AWS, GCP, Terraform.

Java/Angular Developer– Oumdin

May2022 –July2023(Casablanca, Morocco)

- Participation in the development of a B2B e-commerce platform (Toubkal) using Spring Boot and Angular, implementing key features on both backend and frontend.
- Design and implementation of database architecture, query optimization, and performance improvement to support high-volume business operations.
- **Technologies used:** Java, Spring Boot, Angular, SQL, Relational Databases, AWS, GCP, Jenkins, Maven, Docker.

Full Stack Developer

May2020 –May2022(tout le monde)

- ave worked with multiple programming languages and frameworks on full stack projects.
- I develop web applications using Java/Spring Boot and Angular, and adapt to other technologies based on project needs.
- I am involved in the design, development, and maintenance of applications in an Agile environment.
- Technologies used: Java, Spring Boot, Angular, React, SQL, and relational databases.

EDUCATION

Software Engineering and Information Systems Management (National School of Applied Sciences)

Kenitra
September2025 - june2027

Software Engineering Degree (University Mohammed 6 PolyTechnics-YouCode)

Safi, Morocco
Septembre 2023 - june2025

Bachelor Degree In Computer Science(University Hassan 1 Of Technology and Science)

Settat, Morocco
September 2019 - june2023

CERTIFICATIONS

- Oracle Certified Professional(Java SE)
- Oracle Certified Associate(Java SE)
- Docker Certified Associate
- IBM Full Stack Developer
- ALX Software Engineer

LANGUAGES

- English
- French
- Arabic
